

## COMMUNITY HEALTH NEEDS ASSESSMENT TOP HEALTH PRIORITIES

- 1 Ensure access to healthcare, including evening hours, same day appointments, and multi-lingual support
- 2 Improve quality of care and focus on outcomes as it relates to chronic conditions
- 3 Enhance integration of behavioral healthcare with primary healthcare

## COLLABORATION EXAMPLE

"Collaborate with the Sedgwick County Health Department to provide a robust dental care initiative in the public schools. Dental health efforts include participation in a School Based Dental Sealant Collaborative that provides dental screenings and expanded dental services to students in school districts throughout the county."

## CARE COORDINATION & PATIENT-CENTERED MEDICAL CARE

"Hunter Health Clinic is working towards attaining certification as a Patient-Centered Medical Home (PCMH) under the direction of their Steering Committee guiding an implementation plan utilizing a cadre of resources."

## ADDRESSING COMMUNITY HEALTH PRIORITIES

"In 2016, Hunter Health celebrates 40 years of providing primary care services to the community. Hunter Health partners with a number of organizations to address the primary health priorities of the community, including access to care, management of chronic conditions and integration of medical, dental and behavioral health. Hunter Health provides services at three locations and through a number of outreach events throughout the year."

## COMMUNITY PARTNERSHIPS

**HOSPITAL** "providers have admitting privileges... accept referrals and collaborate on discharge planning..."

**HEALTH DEPARTMENT** "strong working relationship... work in partnership on multiple initiatives..."

**MENTAL HEALTH CENTER** "strong relationship...streamlined process for referral and care coordination..."

**PRIVATE PRACTICES** "maintains solid relationships with local clinics and private practices to maximize local resources and minimize duplication of services"

**OTHER** "partner with many organizations including Faith Builders, SIDS Foundation, United Way, Kansas Works..."

## USING GRANT FUNDS TO IMPROVE PATIENT CARE

"The grant funds will be used to expand clinical resources and services for patients diagnosed with chronic conditions including diabetes, hypertension and cardiovascular disease."
